

Virtualbox

I use bookworm and virtualbox

```
https://www.virtualbox.org/wiki/Linux_Downloads
```

```
right click on all distribution, save link as and save the (DOT)run file
```

```
make run file executable and execute
```

```
download virtulbox extension pack :  
https://download.virtualbox.org/virtualbox/7.0.8/Oracle_VM_VirtualBox_Extens  
ion_Pack-7.0.8.vbox-extpack
```

```
cli and naviagte to the downloaed extension pack folder and execute sudo  
vboxmanage extpack install <extpack file>
```
